

MEVECO

*Individual solutions to meet your
specific circumstances.*

A modern building facade with large glass windows and a dark grey sign that reads "MEVECO" in silver, 3D letters. The building has a mix of dark grey panels and light-colored wood slat accents.

WE BELIEVE IN GREAT IDEAS

Meveco is a high technology company in Sweden. Our business idea is that partnership with other companies make us stronger and more successful. That is why we work to create collaboration with various companies in the world, in order to present the best products.

We have been operating our business since 1993 with energy efficiency of buildings, solar energy, wind power, food and grain market. We have extensive expertise and great experience within energy related questions. Our partners are mainly in the US, Germany and China. Through our technical knowledge, we can bring together products from different vendors in the world to get providing cost-effective solutions.

WHY USE US!

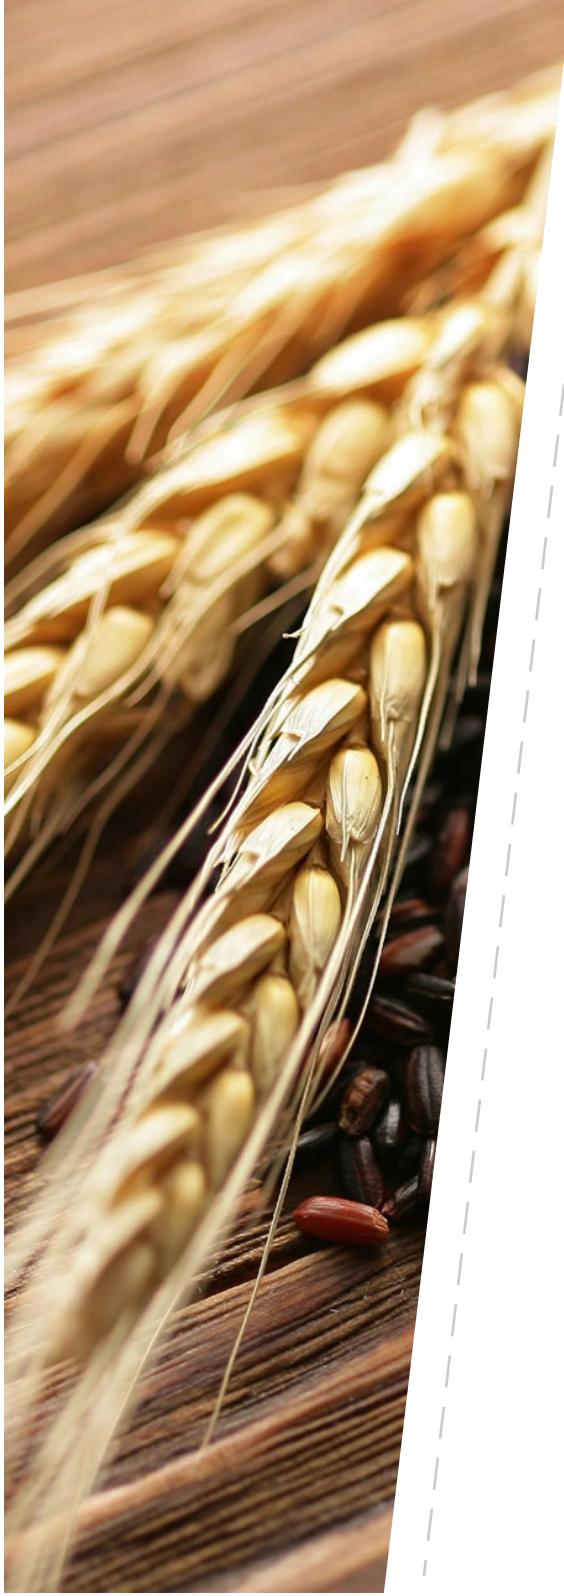

We offer a wide range of grains and foods providing you with the best quality on the market.

With our worldwide connections we import and export products from many corners of the planet. As a customer you can always rely on us.

We have broad expertise in solar energy, wind power and generators. As well we obtain great knowledge in energy saving for buildings.

Meveco is a privately-owned trading company specialized in importing and exporting high quality foodstuff products from Europe and the rest of the World on an exclusive basis. It is specialized in the mediation between producers and distributors or retailers, in order to find the most efficient and effective solutions.

IMPORT-EXPORT

Meveco is a privately-owned trading company specialized in importing and exporting high quality products from all over the World on an exclusive basis. We are specialized in the mediation between producers and distributors, in order to find the most efficient and effective solutions.

In order to insert small companies in the international business, expanding business opportunities both on imports and exports, we act as importer and exporter of several goods, assisting the companies in this new activity.

The access to new markets and products is fundamental in this globalization time, making possible the growth of our business partners. In selecting criteria for gathering partners in relation to quality, we use our knowledge of the market and trade marketing skills of our company on the retail and wholesale markets. We are dedicated to excellence, and the proof of that lies in our portfolio of satisfied clients. Moreover, that portfolio is growing and, we believe, will only continue to grow as we strive towards even higher standards of service. We always seek to provide the customer with value and a top quality product or service. At heart,

Meveco is a company that is constantly seeking out new opportunities and extensive operational experience in developing new businesses. We are dedicated to satisfying our customers no matter how big or small. The company believes in respecting its customers, listening to their requests and understanding their expectations.

Individual solutions to meet your specific circumstances

We believe in remaining independent. It allows us to work with the best partners to solve our clients' challenges with smart, efficient, breakthrough thinking. Plus, it lets us stretch budgets further and keeps us focused on our clients' marketing goals, not some holding company or shareholder's financial goals. We believe in our experience.

We've worked on major national and regional clients in a wide array of industries, which means we can bring both boardroom leadership and applied skills to clients of any size.

We believe ideas must emotionally connect with the audience. Without being too crass about it we ask ourselves, "Why would anyone give a shit about this message?" We must first appeal to people's emotions and make them care before we can appeal to their sense of reason.

Finally, we believe in ideas first and tactics second. In our case, if we put media tactics ahead of the idea, then we'll undoubtedly exclude other ideas that could achieve better results. To best solve our client's problem, we remain open to several different answers.
